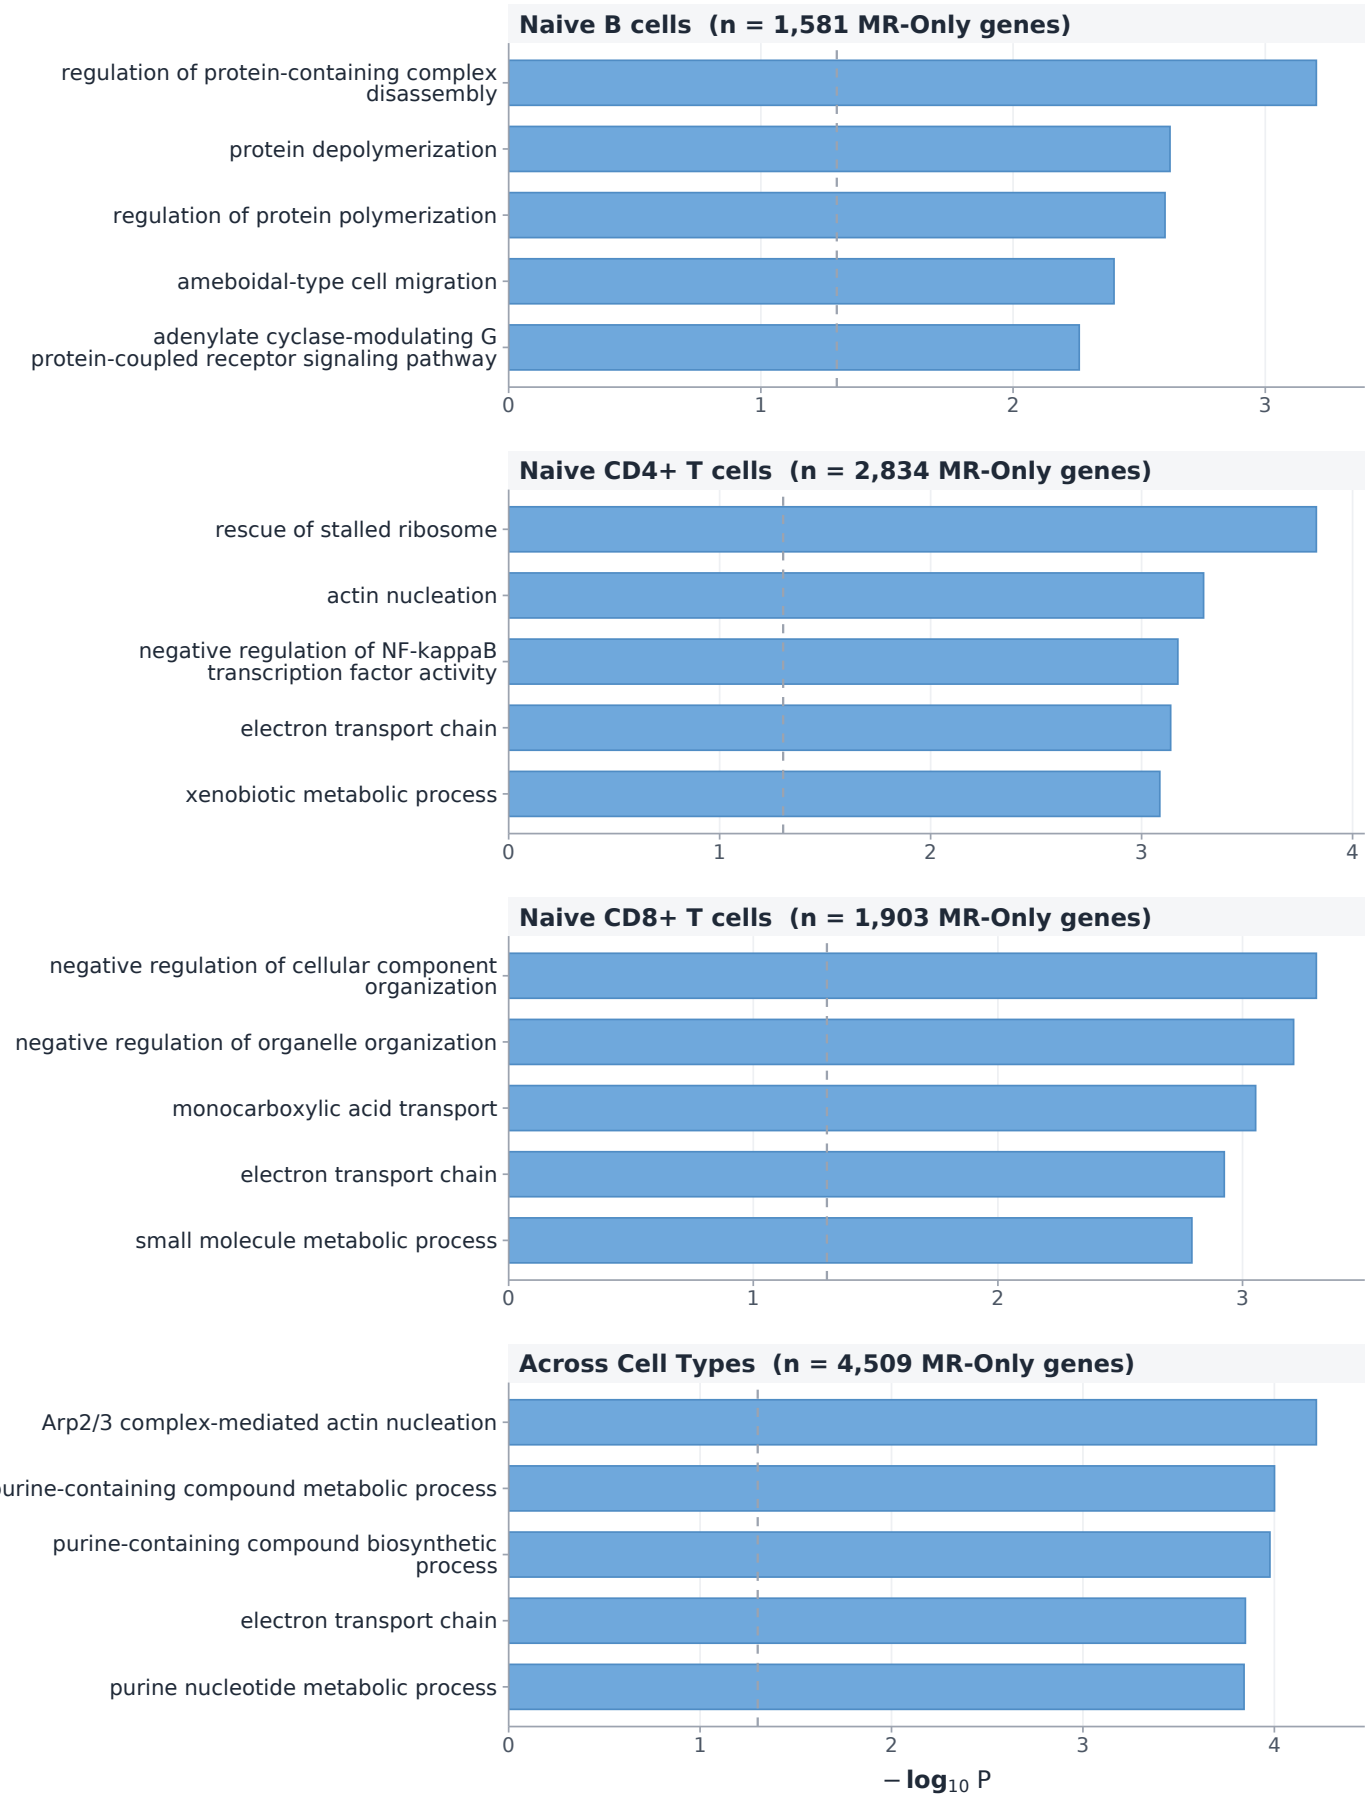
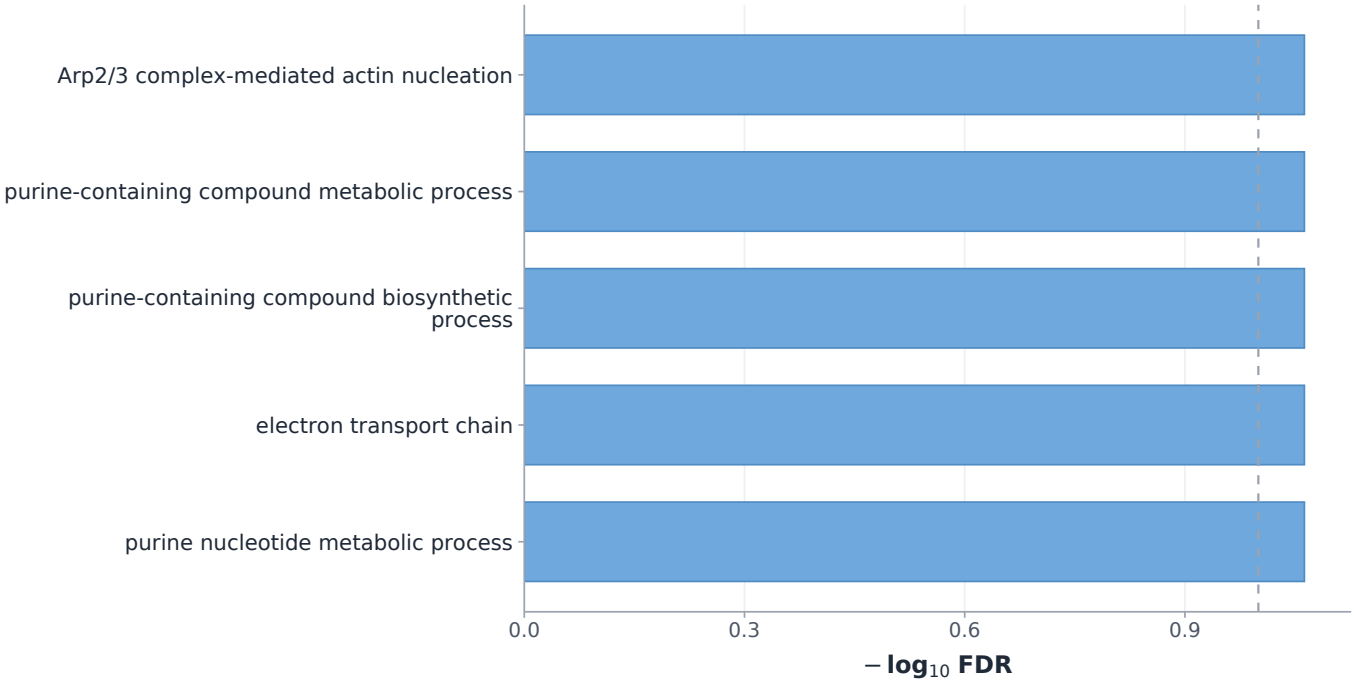
GO BP enrichment of MR-Only genes (GSEA)

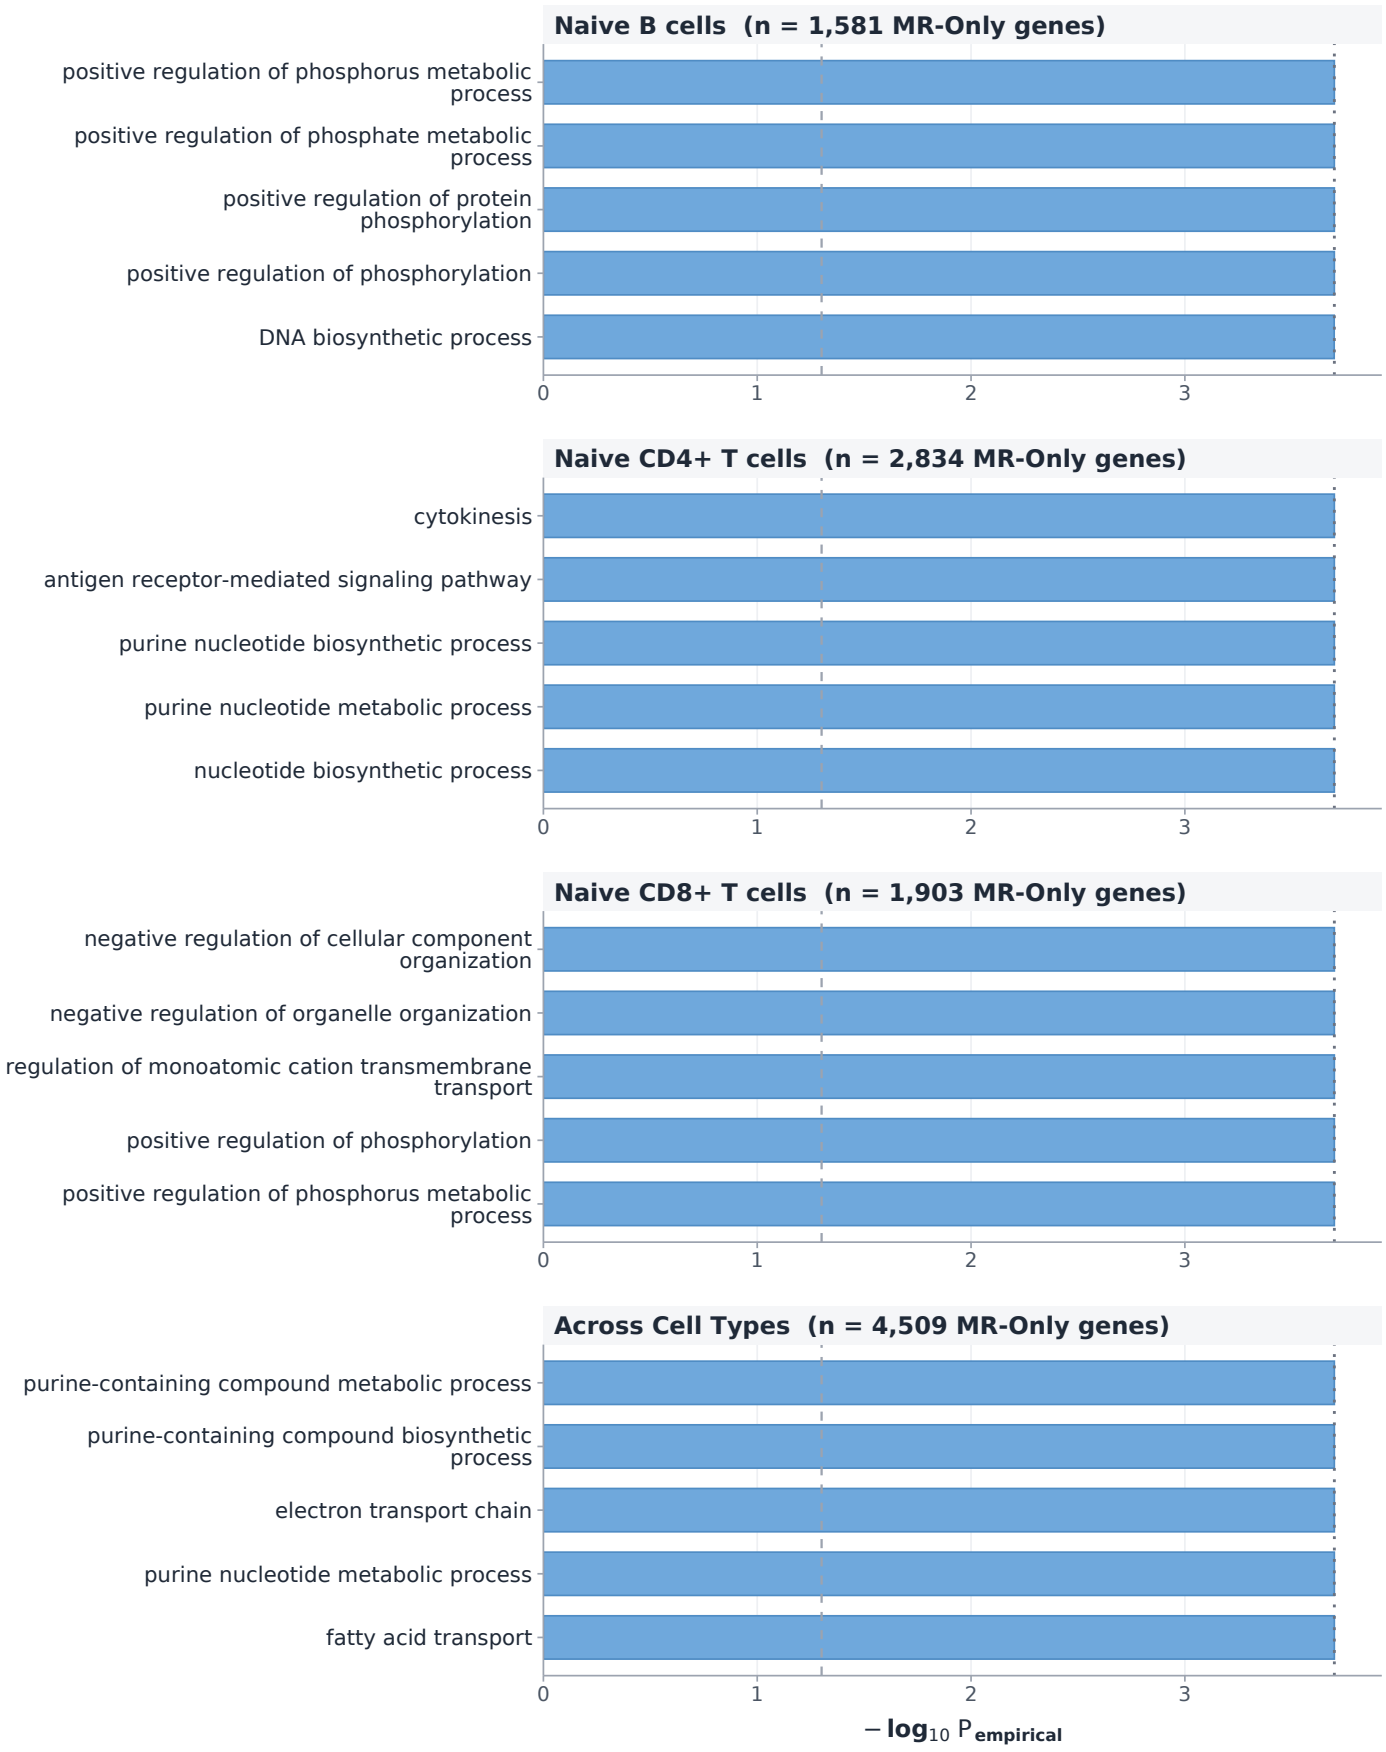
Top 5 terms per gene set; dashed line: P = 0.05



GO BP enrichment of MR-Only genes: Across Cell Types

n = 4,509 MR-Only genes; BH FDR
dashed line: FDR = 0.1



GO BP enrichment of MR-Only genes: empirical P


Top 5 terms per gene set by empirical P (ties broken by GSEA P)
5,000 random gene sets of the same size drawn from tested genes
dashed line: P = 0.05; dotted line: minimum attainable P = 1/5,001
